

Wind Turbine Safety Stickers

EnergyConnect Part No: WINDSAFESTICKERS

Every grid connected installation of a micro generation product, in this case wind turbine, should have all the appropriate and required (G83 regulations) stickers to inform and warn of the possible dangers of both the turbine, and a 'Dual Supply' electrical grid.

Each wind turbine sticker pack contains all the required stickers for ONE turbine installation.

WHAT COMES IN A PACK?

Contents:

- 1x START and STOP stickers for isolator
- 1x Mains Isolator Sticker
- 1x Danger 'Rotating Blades'
- 1x For Service/Maintenance Contact Sticker
- 3x 'Dual Supply' Warning Stickers, with location of both grid and turbine isolation points.
- 3x Earth Connection Logo Stickers

DIMENSIONS:

- Dual Supply Stickers (h x w) (45x120mm)
- Service Stickers (40x104)
- Rotating Blades (42x105)
- Mains Isolator (33x100)
- On and Off Stickers (Both 15x25)
- Earth Connections (15x15 each)

COLOUR:

See Above

The sticker packs are also available in bulk packs of 5 installations worth, and can be brought from our online shop shop.energyconnectuk.com or over the phone on 0116 2425151.
